

LearnIT

Learn IT for your classroom

ICT workshop series 2010

Learn how to teach web design and movie applications effectively in the primary and secondary classroom.

- Adobe Flash, Dreamweaver and Fireworks
- Microsoft Movie Maker, Photo Story, PPLEX for PowerPoint, Picasa and Delicious

Inclusions

Workshops are fully catered. Workshops include 30-day trial versions of required software, and course notes. After-workshop email support, feedback and instruction is included. Workshops are conducted from 9am to 4pm, and are presented by Stuart Deane.

Learn **Multimedia** and **Digital Portfolios** for your classroom – Introductory

This course is an introduction to using the freeware applications Microsoft Movie Maker, Photo Story, Producer for PowerPoint, PPLex for PowerPoint, Picasa from Google and social bookmarking from Delicious.

Teachers will learn how to easily and effectively integrate multimedia exercises into the classroom. Practical examples of teaching and learning activities will be demonstrated.

Workshop outline

- With Movie Maker, import and edit videos; adding subtitles, transitions and sound
- Share videos via the web, e-mail, or CD
- With Photo Story, import and edit digital photos
- Create slideshows using digital photos and touch-up, crop or rotate photos
- Add special effects, soundtracks, and your own voice narration to your photo stories and personalise them with titles and captions
- Use Picasa to manage, organise, edit and backup your entire digital photo collection
- Learn how to create gift CDs from your photos in minutes
- Discover hundreds of quality teaching web sites through Delicious
- Learn how to download videos from youtube to your computer
- Add PPLex to PowerPoint to add dynamic zooming and panning to your presentations
- Combine files into a professional PDF Digital Portfolio

NEW – Teachers will learn how to quickly combine documents, movies, and images into professional PDF Digital Portfolios using Adobe Acrobat.

COST \$250 ex gst. Generous discounts for multiple bookings available

VENUE MELBOURNE
Friday May 7 2010
Carey Grammar School
349 Barkers Road Kew

Learn **Adobe Dreamweaver** and **Fireworks CS4** for your classroom – Introductory

This course is an introduction to using Adobe Dreamweaver CS4, a comprehensive web design application and Adobe Fireworks, a web graphics tool.

Teachers will explore how Dreamweaver and Fireworks can be used to design websites ranging from a single page, student e-portfolio to a detailed departmental collection of electronic curriculum resources.

Practical exercises will demonstrate how teachers can effectively teach Dreamweaver and Fireworks to students. NB Earlier version catered for.

COST \$250 ex gst. Generous discounts for multiple bookings available

VENUE MELBOURNE
Friday April 30 2010
Carey Grammar School
349 Barkers Road Kew

Workshop outline

- Explore the Dreamweaver interface and web design modes
- Create and define a site
- Create, use and manage template and library folders
- Create CSS web page layout and design
- Apply cascading style sheets
- Insert hyperlinks
- Modify existing Dreamweaver templates
- Using Fireworks, import files from all major graphics formats into Dreamweaver
- Optimise images, give them advanced interactivity and export into Dreamweaver
- Build web photo libraries and galleries
